

Compass

mobile stand for iPad/iPad mini
owner's guide

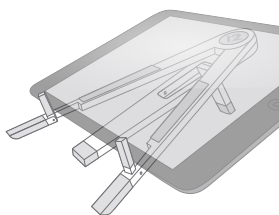

Compass Positions

Try these two positions to get the most from your iPad on Compass:

Display mode

Extend out all three main Compass legs, then flip out iPad supports.

Typing mode

Extend the two front legs of Compass, then flip out the short back leg. Lower Compass onto desk and flip out front supports.

Top Tips

Get creative with how you use Compass with your iPad/iPad mini. If you discover a clever way to use Compass, share it with us at facebook.com/twelvesouth.

1. Park it on your desktop to keep tabs on news, weather or tweets.
2. Set this handy stand on the kitchen counter to follow a recipe.
3. Set Compass on a table, dim the lights and watch a movie.
4. Rest Compass on an airplane tray table for an instant workstation.
5. Use next to your MacBook for a portable dual-screen setup.
6. Place Compass in typing mode and tap out a few emails.
7. Use Compass as a mini easel with your favorite painting apps.
8. Stand it next to a birthday cake and play an iPhoto slideshow.
9. Use Compass for hands-free FaceTime calls with a chatty friend.
10. Line up Hot Wheels in front to create a mini drive-in theater.
11. Place it on a patio table and watch a movie under the stars.
12. Park it on a coffee table and stream shows to your Apple TV.
