## Journal for iPhone X

owner's guide

### **Breaks in like new shoes.**

The spine of Journal is little stiff at first, but don't worry. Just like a new pair of shoes, your new case will break in as you use it.

**Tip:** If the cover of your Journal stays open after adding cards and cash, set it down with the camera facing up. This will help break in the spine while keeping your Journal closed.

### **Hands-free display.**

To turn your Journal into a hands-free display, tilt your iPhone and rest the front edge on the wallet side of the case. It's perfect for watching videos, FaceTime and more.
