

BackPack

adjustable shelf for iMac and iMac Pro

Little shelf that's out of sight, but not out of reach.

BackPack is a sleek, sturdy shelf designed exclusively for your iMac or Apple Display. This gorgeous slice of steel makes a perfect perch for hard drives, USB peripherals or business cards. Included vertical support pegs prop up tall drives, Time Capsule or even a MacBook. BackPack hangs on the back (or front) of your iMac using two clips and gravity. Built-in cable management rails hold your power cords in place for grab-and-go convenience. BackPack is here to help you create the minimalist zen-like workspace your Mac was made for.

Key facts:

- Holds up to 3.5 pounds of hard drives, peripherals— even a MacBook
- Built-in cable management rails keep cables nearby
- Included support pegs hold up vertically-oriented peripherals

Compatibility:

Fits all current models of iMac, iMac Pro, and Apple Displays with metal L-shaped desk stands
