

Curve

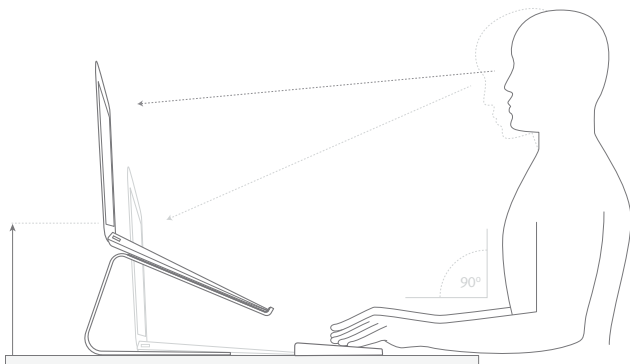

desktop stand for MacBook

Curve bends the bar for MacBook stands.

At first glance it looks like a work of art. Look closer and see Curve is an elegant, aluminum MacBook stand. One that lifts MacBook an ergonomically correct 6.5" above your desk, with a 25-degree tilt. Use the matte black Curve to create a more comfortable, more efficient desktop setup by pairing MacBook with your favorite keyboard and mouse. Need to enter a keyboard shortcut or tap your Touch Bar? Curve puts them within easy reach. When it's time to go mobile, unplug your MacBook and roll out leaving a riveting sculpture behind.

Key facts:

- Raises screen off desk for improved ergonomics and airflow
- Pair with a full-size keyboard & mouse for a comfortable desktop setup
- Use alongside an external display for the ultimate dual-screen workstation
- Sculpted aluminum design fits all models of MacBook and other laptops
