

# GhostStand

desktop stand for MacBook

## Hauntingly beautiful.

GhostStand is a transparent, ultra-modern platform— and a brilliant work of art— that elevates MacBook to a more comfortable viewing height. Pair your MacBook with a full-size keyboard and mouse, then set it on GhostStand to enjoy desktop style comfort at home or work. While GhostStand makes it look like your MacBook is floating in midair, two sets of soft silicone rails keep your Mac safely grounded to this affordable lucite stand.

## Key facts:

- Raises MacBook to a more comfortable viewing height for desktop use
- Allows for elevated airflow around MacBook for cooler, quieter performance
- Non-slip silicone rails grip any MacBook Pro, MacBook Pro with Retina display or MacBook Air

## Compatibility:

Works with all models of MacBook, MacBook Air and MacBook Pro
