

## HiRise for iPhone/iPad mini

adjustable desktop stand

### The ultimate pedestal for iPhone and iPad mini.

HiRise for iPhone/iPad mini is a beautiful, brushed metal stand designed to work with your Apple Lightning Cable (not included) – and virtually any iPhone/iPad mini case. Place HiRise in your workspace to charge while your hands are free during calls and FaceTime chats. Unlike most other docks, HiRise doesn't block your speakers, mic or headphone ports. This vertical pedestal is small and beautiful enough to use anywhere in your home or office. It's the ultimate perch for keeping your iPhone or iPad mini fully charged and ready to go.

#### Key facts:

- Fits most cases, even Apple iPhone 6 and iPhone 6 Plus cases
- The line out on Apple's dock is not amplified and will not support headphones
- Apple's dock blocks the iPhone speaker and microphone, so FaceTime isn't possible

#### Compatibility:

iPhone 6, iPhone 6 Plus, iPhone 5/5c/5s, iPad mini, iPod Touch (5th gen.) and iPod nano (7th gen.)

#### Not included, but required:

- Apple Lightning Cable

Available in Silver and Black

We're not just Mac *friendly* – we're Mac **only.**  twelve south
