## SurfacePad for iPhone 6/6 Plus

"The leather feels really nice in the hand and smells good to boot. There is reinforced stitching on the perimeter to improve durability and underneath the front flap is microfiber, which keeps the screen clean and protects against scratches.

... SurfacePad is easily the best-looking case I've seen for the iPhone 6 thus far."

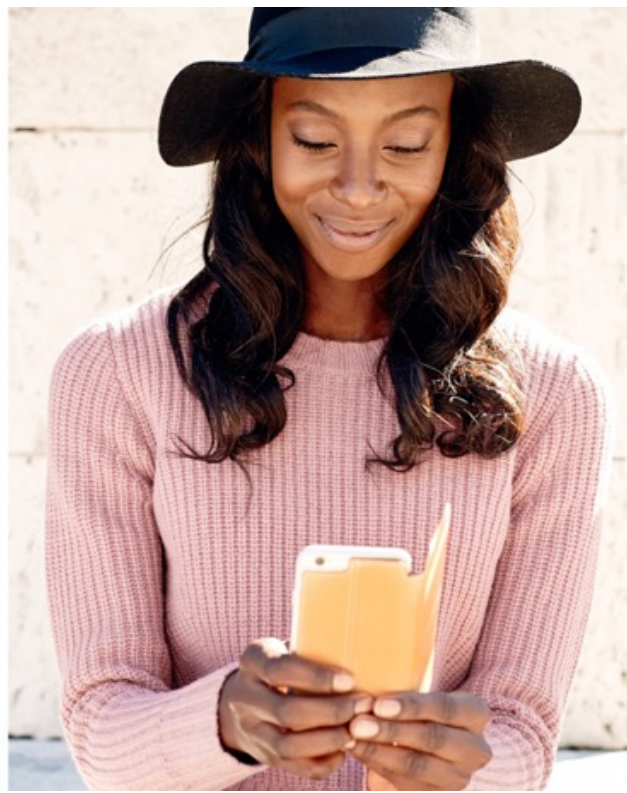

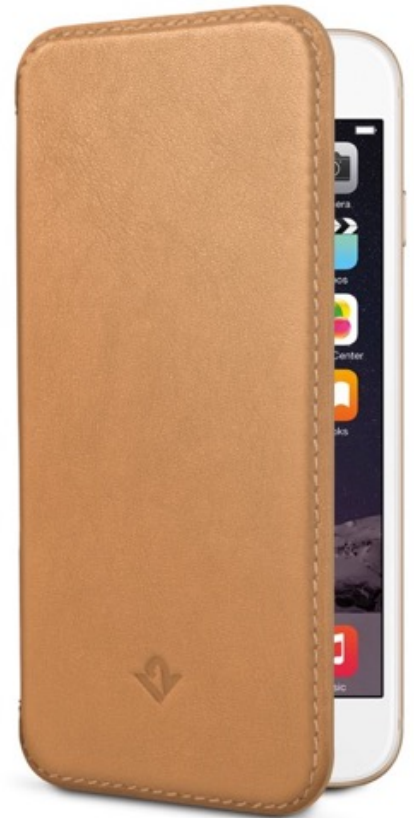

– [Mashable](#)

"The best lightweight folio case out there. It's thin, light, and very well made, and sold at a price won't break the bank."

– [TUAW](#)

"Between the smooth Napa leather that wraps around the phone and its ultra-thin shape, this folio is a great option for those who prefer to go sleek with their phone cases."

– [Cool Mom Tech](#)

“With the larger iPhone, Twelve South was able to include a pair of credit card-sized slots in the front cover, enough to hold a drivers license and credit card for traveling light during a night out on the town.

It's an excellent case for someone looking to keep their iPhone as small as possible, while adding a little protection and perhaps a splash of color.”
